

Vael
Brand Guidelines

How Vael looks, moves and speaks. Version 1.0 — October 2026.

01

Foundation

Everything below follows from one idea. **Vael does the work. You keep control.**

Mission

Give finance teams their month back.

Positioning

For finance teams drowning in month-end, Vael is the AI agent that does the work and waits for your approval.

Promise

Close in 2 days, not 9. Nothing posts without a human yes.

Audience

CFOs, controllers and accountants at companies from $10M to $1B in revenue.

Proof

Every claim ships with a number: 97% matched, 78% faster, 0 unapproved entries.

Personality

Calm

Never rushed. Never loud.

Not: hyped, urgent, salesy

Exact

Numbers over adjectives.

Not: vague, fluffy, approximate

Accountable

Shows every step. Asks before acting.

Not: magic, black box

Warm

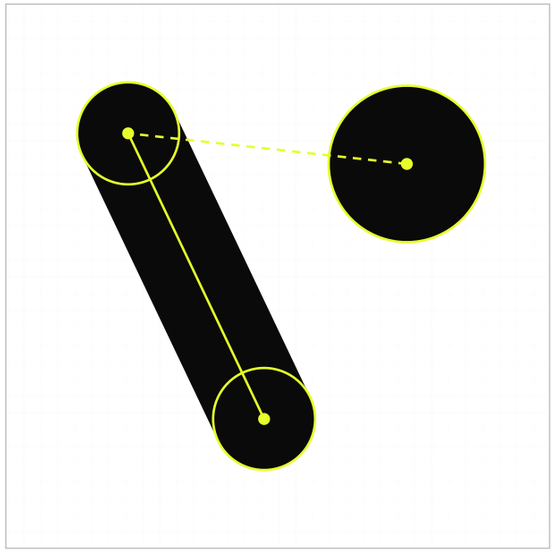

A colleague, not a machine.

Not: cute, jokey, childish

02

Logo

One stroke and one point. **The stroke is the work. The point is your decision.** Together they read as a V.

Construction

Grid	32 × 32 units
Stroke	6 units, round caps
Stroke axis	(7.2, 7.6) → (15.2, 24.4), 64.5°
Point	Ø 9.2 units, centre (23.6, 9.4)
Point colour	Neon on dark. Same as stroke on light.

Wordmark

Type	Funnel Display SemiBold, lowercase
Tracking	−6%
Lockup gap	0.35 × mark height

Versions

On Paper

On Neon

Clear space

Keep one point-width (●) free on every side.

Minimum size

Mark 16 px

Lockup 64 px wide

Below this, the point merges with the stroke.

Mark only

For app icons, favicons and avatars. Always on Ink with a Neon point.

Don't

Stretch or squash

Rotate

Use off-palette colours

Add effects or shadows

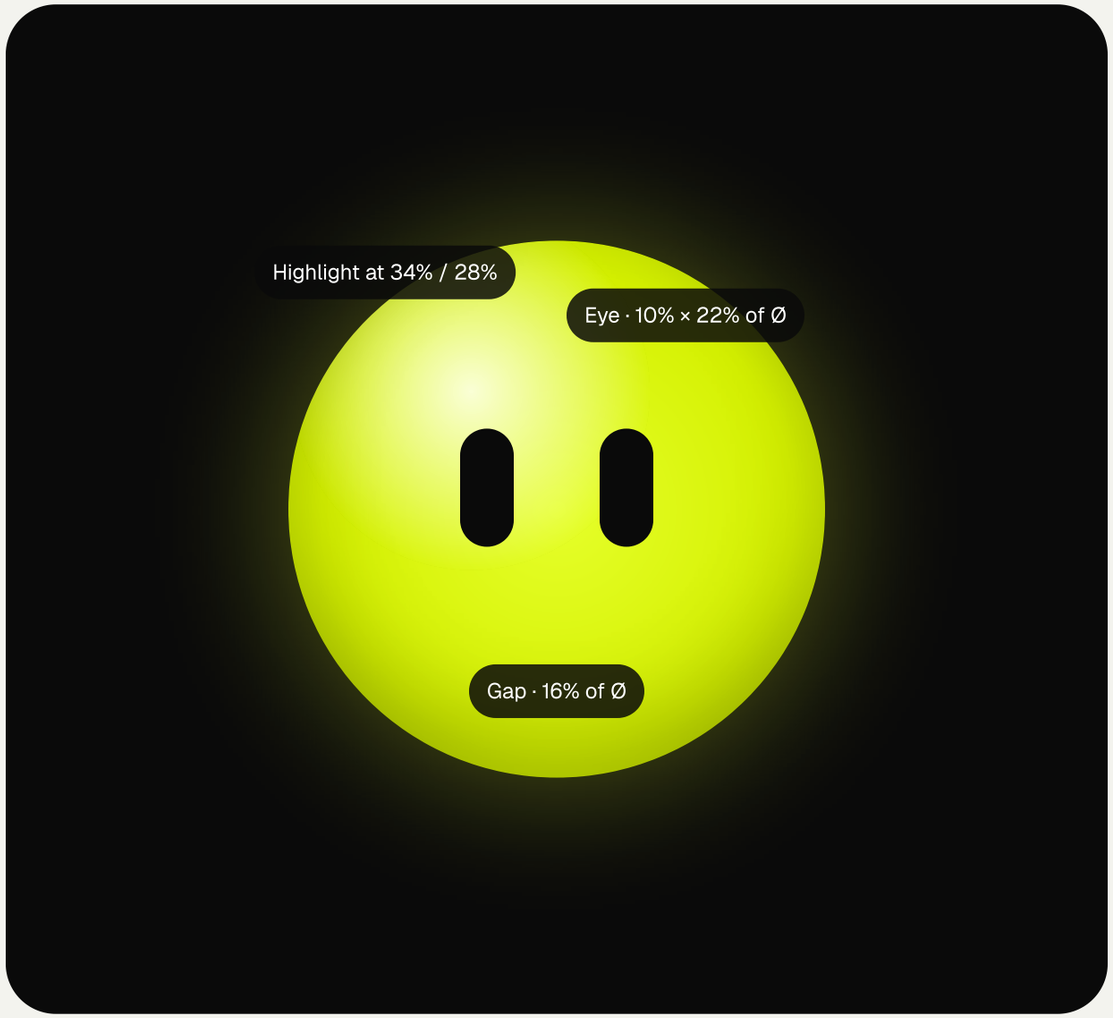

Change the wordmark

Put Neon on Paper

03

The character

Vael has a face so people know **an agent is at work**. The face shows what Vael is doing. It never decorates.

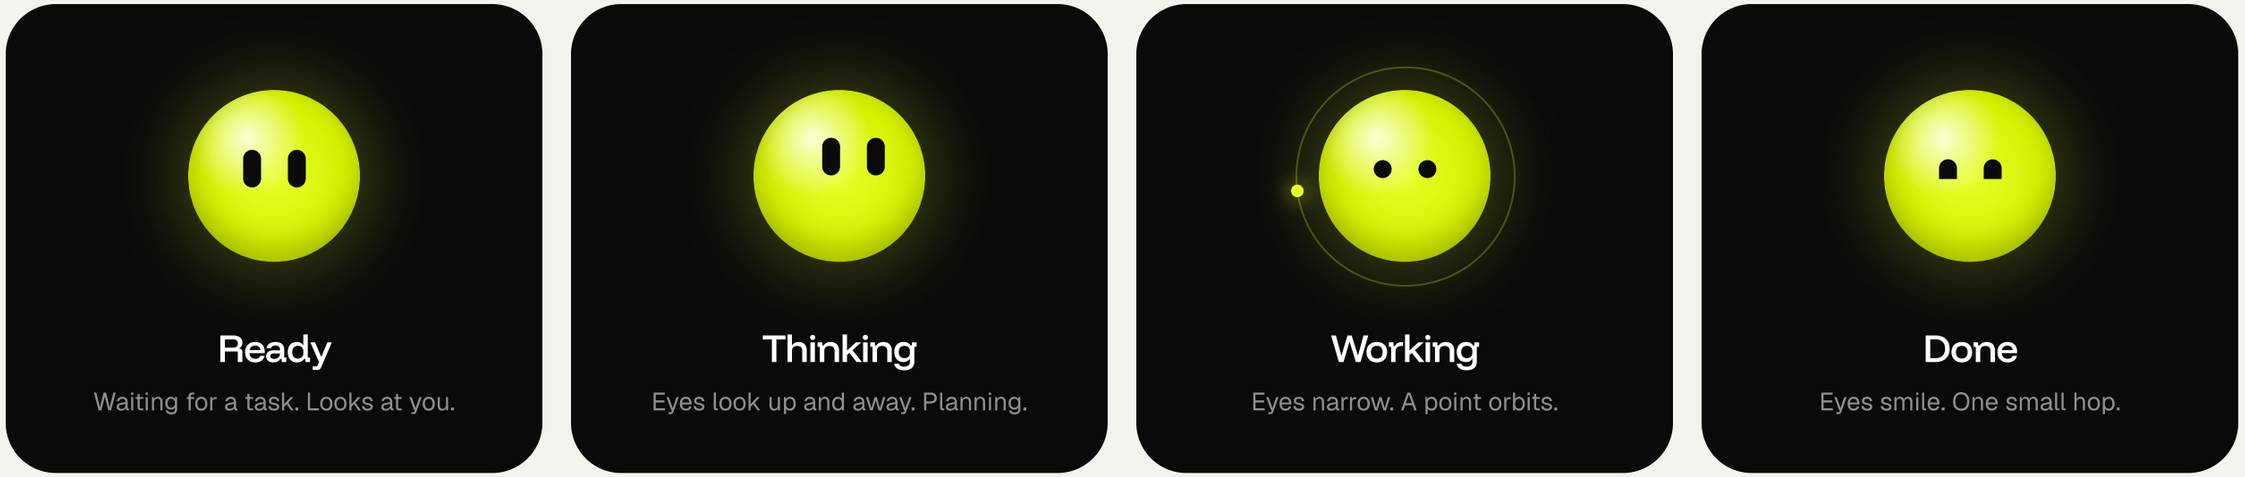

Anatomy

Body	Neon sphere. Radial shade to #A9C200 at the edge.
Eyes	Two Ink pills. Centre at 46% height.
Mouth	None. Ever. Eyes carry the emotion.
Glow	Neon at 35%, blur half the diameter. Large sizes only.
Sizes	24 · 30 · 72 · 96 · 128 px

Behaviour

Gaze	Eyes follow the cursor. Max shift 14% × 10% of Ø.
Blink	130 ms, every 2.5 – 6.5 s, random.
Breath	Scale 1 → 1.035, 4.5 s loop.

States

Do

- Show the face next to what Vael says or does.
- Match the state to the real task status.
- Use one face per card or screen.

Don't

- Add a mouth, arms, hats or props.
- Recolour the body.
- Use the face as decoration or a mascot sticker.
- Show it below 24 px.

04

Signals

Success · #3CCF7A

Needs review · #FFB02E

Error · #FF4D4D

Use signals only for status inside the product. Never in marketing art.

05

Typography

Two families. **Funnel Display speaks. Geist explains.**

Aa

Funnel Display

Headlines, numbers, the wordmark. Weights 400 · 500 · 600.

Aa

Geist

Body, UI, buttons, data. Weights 400 · 500 · 600.

Two-tone headline

Our signature. Line one in Ink states the fact. Line two in Grey 500 adds the feeling.

Bold the benefit

In body copy, bold the one phrase that sells. One per paragraph.

Never

All caps, italics, letter-spaced labels or more than two weights in one block.

Scale

Lead · Geist 19 / 1.55

Vael plugs into the tools you use today. It **takes the work off your plate**.

Body · Geist 16 / 1.55

I matched 4,690 lines on amount, date and memo.

Small · Geist 14 / 1.5

Every plan starts with a free 30-day pilot.

06

Voice

Write like a senior accountant who respects your time. **Short. Plain. Exact.**

Grade 5–7

Short words. Short sentences. If a 12-year-old can't read it, rewrite it.

Active voice

"Vael matched 4,690 lines." Not "4,690 lines were matched."

No fluff

Cut adverbs and qualifiers. Swap adjectives for numbers.

Who speaks

Vael · in the product

"I drafted 6 journal entries. Nothing posts until you approve."

First person. Says what it did, then what it needs from you.

The company · in marketing

"Your books close while you sleep."

Talks to "you". Leads with the outcome, then the proof.

Rewrite it

Instead of	Write
~~Leverage AI-powered automation to streamline your financial close process.~~	Close your books in 2 days, not 9.
~~Our cutting-edge platform seamlessly integrates with your existing tools.~~	Vael works with NetSuite, Stripe and 40 more. Live in a day.
~~Transactions have been successfully reconciled.~~	I matched 4,690 lines. 122 need a look.
~~Revolutionary, game-changing, next-gen.~~	A number.

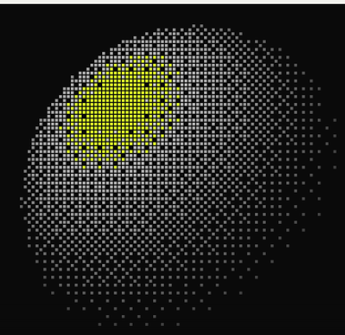

07

Imagery

No stock photos. **We show the product, the data and the light.**

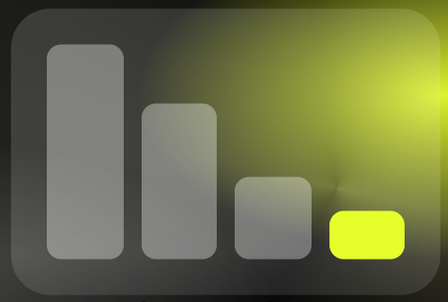

Dot field

A grid of points that reacts to the cursor. Hero and closing sections.

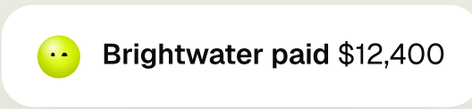

Dithered orb

Ordered dither, Neon only at the brightest point. Results and data stories.

Glass on light

Frosted cards over a Neon glow and film grain. Customer stories.

Product moments

Real UI, one idea per frame, real-looking numbers.

Do

- Use one light source, always Neon.
- Keep generous dark space around art.
- Use precise numbers in UI shots: $12,400, not $XX.

Don't

- Robots, brains, circuit boards or glowing blue.
- People pointing at screens.
- 3D blobs in many colours.

08

Interface

Soft shapes, no lines. **Space and surface do the separating.**

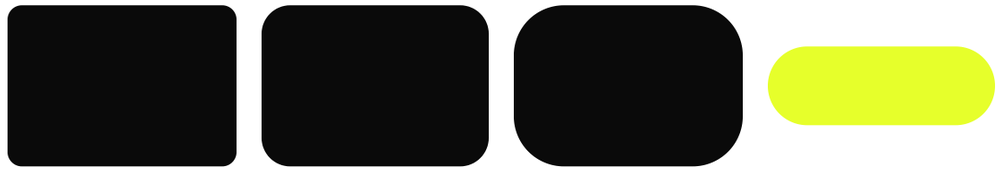

Buttons

Book a demo Start a pilot

Approve Give Vael a task

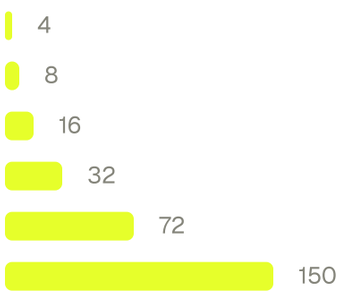

One Neon button per view. Pill shape, 48 px or 38 px tall.

Radius

8 tags · 16 inner cards · 28 tiles and panels · pill for buttons and chips.

Spacing

16 between cards. 72 under section titles. 150 between sections.

Motion

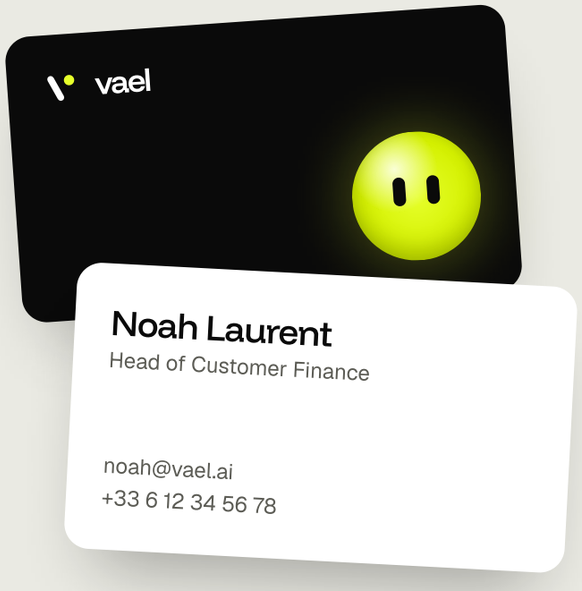

Easing	cubic-bezier(.2, .7, .1, 1)
Fast	250 ms · hovers, presses
Base	600 ms · cards, states
Slow	900 ms · section reveals

Respect reduced motion. Nothing loops except Vael's breath and live data.

09
